## New Business

10. Special Publications –

ASHRAE Special Publication	Year Publ.	Committee or Project
HVAC Simplified	2006	TC 07.01
HVAC Simplified Solutions Manual	2007	TC 07.01

- a. These publications are more than 11 years old, and ASHRAE must rely on the expertise of your committee to inform decisions about whether these publications contain up-to-date information in their current state, need to be revised for publication of a subsequent edition, or need to be withdrawn from bookstore sales. We are told this is a consistently popular book but that some of the examples are dated. Please consider revisions or updates to these publications.
- b. Integrated Building Design Applications Manual
  - originally we were supposed to publish it in January 2008 (so maybe it was worked on in 2007?), then we were told we wouldn't even get files until January 2009, and then it was delayed again until January 2010, and then the last date that was recorded says we were supposed to publish it in January 2015.
11. Open discussion on industry and experience for IBD or IPD
12. Resource repository
13. Other
